

error to say what he is going to do about it. The presence of the district attorney here brings to mind the fact that it is a settled policy of law that content of a will is held to be within the subject of indictment by a Federal grand jury, is looked upon as a crime, and is so dealt with. The indictment is also thrown out that the presence here of the district attorney may bear some relation to the fact that a special term of court could be called if it were needed, and that at all events a regular term will convene here on the 6th of next month.

Some say that actual indictment is a contingency that is not yet realized, and that this course will not be followed unless the Governor summarily turns down the peace proposals, but that it was desired to consult the district attorney, in his capacity as a law agent of the government on the general trend of events.

Hon. C. W. Russell, acting Attorney-General of the United States, in the absence of Attorney-General Bonaparte, is giving the matter close attention, by special direction, it is believed, of the President.

### GOVERNOR IN CONFERENCE

Spends Three Hours With Lawyers and "Council of State" Not Show Hand Yet.

[Special to The Times-Dispatch.] RALEIGH, N. C., July 24.—For nearly three hours this afternoon Governor Glenn, the counsel on the part of the State for the enforcement of the State passenger rate act, and the members of the Council of State were in conference, going over the proposition from Assistant Attorney-General Sanford for securing a speedy and orderly determination of the sensational passenger rate litigation with the Southern Railway. ### OPEN TALK OF IMPEACHMENT

Many Believe North Carolina Officials Would Co-Operate in Such a Step.

[From Our Regular Correspondent.] WASHINGTON, D. C., July 24.—The possibility of impeachment proceedings against Judge Jeter C. Pritchard being instituted when Congress convenes in December is discussed here, although there is nothing tangible upon which to base a prediction. It may be asserted when the time comes to take action in such a case that Judge Pritchard, in the view of many, grossly exceeded his authority when he rendered a decision which paralyzed the legitimate authority of the State of North Carolina, and sought to prevent her from exercising her legislative power. Should such an effort at impeachment be made, it is probable that the Governor and other State officials of North Carolina, and members of the State judiciary, will co-operate with members of the House of Representatives in seeking to make trouble for Judge Pritchard.

### OTHER NOTICES OF INJUNCTION

Judge Pritchard's Orders in A. C. L. Served on Carolina Corporation Commission.

[Special to The Times-Dispatch.] RALEIGH, N. C., July 24.—United States Marshal Claudius Dockery today served on the North Carolina Corporation Commission a restraining order of Judge Jeter C. Pritchard, of the United States Circuit Court at Asheville, in the case of R. Nelson Buckley and others against the

Atlantic Coast Line Railway Company, this being the suit in which the stockholders of the Atlantic Coast Line enjoin the Corporation Commission and the officers of the Atlantic Coast Line Company against putting in operation the 2-1-4 cent passenger rate act passed by the last Legislature, and which has brought about such sensational litigation between the State courts and the Southern Railway the past two weeks. The orders served to-day are made returnable at Asheville on the second Monday in January, 1908. The papers will be sent to a deputy marshal at Wilmington to be served on the officers of the Coast Line Company there.

### "LEGAL ANARCHY" IN CAROLINA

So Washington Lawyers View Situation Should Further Injunctions be Granted.

[Special to The Times-Dispatch.] WASHINGTON, D. C., July 24.—Constitutional lawyers here, and some of the legal experts connected with the Department of Justice, believe that Judge Pritchard has gone entirely beyond his authority in the Southern Railway case. It is said here that the Southern Railway is preparing an ancillary, or supplemental bill, in the injunction case, praying for an enlargement and broadening of the scope of their injunction, by which they expect to make it operative directly upon all prosecuting officers of the State, if not directly upon the State courts. This bill will enjoin every collector of the State personally, but it is contended that collectors are not necessary in the prosecution of the Southern Railway for violations of the law or in other cases that the grand jury prosecutes. If Judge Pritchard should grant an injunction of this broad character, it would mean legal anarchy in North Carolina, according to the views of lawyers here.

### HOLD PRIMARY IN PRINCESS ANNE

Dr. George T. Steed Will Come Back to House of Delegates.

[Special to The Times-Dispatch.] NORFOLK, VA., July 24.—The Democratic primary in Princess Anne ended today with the renomination of A. C. Smith for treasurer by a narrow margin over W. Cason, the next man in the race. Major John T. Woodhouse, who held the office for thirty years previous to the last election, was defeated. Paul Aekies, candidate for the nomination for the office of sheriff, won the nomination. The contest for the nomination for the House of Delegates, Dr. George T. Steed, present representative, was renominated over Judge A. J. Ackles, W. J. Wright, T. S. Land and L. W. Lane. Dr. Steed was nominated for supervisor in the Seaboard District, and Henry James in the Pungo District.

### MULLIKEN GETS LARGE BEQUEST

Mother Leaves Her Entire Estate to Son, Omitting Husband.

[Special to The Times-Dispatch.] ST. LOUIS, Mo., July 24.—The will of the late Louise K. Whitmore, of Henry B. Whitmore, of Lindell Boulevard, makes her son, Charles Mulliken, of Boyce, Va., sole beneficiary. The estate is worth probably \$50,000. The husband is not mentioned in the will. One of its conditions is that Mulliken continue her policy of assisting deserving relatives in need.

### JOINT SESSION TO-MORROW

Electrolysis Causes Much Trouble to Manchester Water Department—Briefs.

Manchester Bureau, Times-Dispatch, No. 1102 Hull Street. Stonewall Jackson Aerle, F. O. Eagles, of this city, has decided to have an all-day outing at an early date. A committee has been appointed to look into the matter, and it is now a certainty that an old-time "brunswick stew" and barbecue will take place either at Forest Hill or at some point on the James River. The Aerle is determined to make the day one of pleasure for all who attend. The committee will report at the next meeting.

The visiting committee of the J. O. U. A. M. councils in this city will tonight pay an official visit to Davis Council. A fine program has been arranged. Several prominent speakers will address the meeting.

### Electrolysis Causes Trouble

Electrolysis is giving the City Water Department much trouble and already for one or two days people have been deprived of water in Seventh Street, between Perry and the bridge. Superintendent Sharpe, in speaking of the matter yesterday, stated that, though he had been worried considerably on account of the electrolysis in the past, he had never before been troubled to such an extent as has been the case during the past week. Temporary relief has been given at times by the Passenger and Power Company. The superintendent declared that he found four-inch water mains which were practically honeycombed, and also stated that when the men went to put in new sections they often found the pipes so thoroughly charged with electricity that it was dangerous to work upon them.

For three days and nights last week Mr. Sharpe had men working on the pipes which had been badly eaten. Smaller service pipes, he said, cannot stand the action of electrolysis more than a month, before they become contaminated.

### To Elect School Board

A special joint session of the City Assembly and the Board of Aldermen has been called for Friday night at 8 o'clock for the purpose of electing four members of the City School Board whose terms have expired. They are Messrs. E. J. Jones, of First Ward; George E. Gary, of Second Ward; Dr. E. T. Rucker, of Third Ward, and E. T. DuVal, of Fourth Ward.

It is understood that all of these gentlemen will be re-elected for a term of three years with the exception of Mr. DuVal, who desires to retire. The board will meet at 8:30 o'clock for the purpose of further considering the application of Messrs. Gill Bros. for certain privileges. This matter is likely to precipitate a most interesting fight, as there is considerable opposition to the granting of the permit.

# Clean, Pure, Wholesome

## Pabst Blue Ribbon Beer

Visit the great Pabst Brewery at Milwaukee, and you will marvel at its immaculate cleanliness. Pabst believes that pure beer demands a clean brewery, and Pabst Blue Ribbon Beer has been recognized for years as the standard of purity in beers. You demand that your home be clean, and especially your kitchen where your food is prepared. As beer is a food, you have a right to know that the conditions under which it is made insure perfect cleanliness in the best of all beers—

# Pabst Blue Ribbon

The Beer of Quality

From the time the barley goes into the Pabst malt houses, and the hops into the Pabst brewery, no ingredient used in Pabst Blue Ribbon Beer comes in contact with human hands. Even the air in which the malt is grown, by the famous Pabst Eight-Day Malting Process, is washed and filtered; every kettle, pipe and tank is regularly and thoroughly cleaned and sterilized. After the beer is brewed the atmosphere never touches it. It is aged in air-tight tanks, it is filtered, bottled and pasteurized; it is a clean beer, just as it is a pure beer—and cleanliness and purity make it a good beer for you to drink.

Pabst Blue Ribbon Beer is rich in the food values of perfect malt and the tonic properties of choicest hops, with a very low percentage of alcohol—less than 3 1/2%—strictly a temperance beverage.

When ordering beer, ask for Pabst Blue Ribbon. Made by Pabst at Milwaukee And Bottled only at the Brewery. Pabst Brewing Co., Marshall & Hancock Sts., Richmond. Phone 386.

### PADDY, ALL ATHIRST, HITS TOWN AND TELLS OF HOLD-UP

Kinsman of Prize-Fighting Jack Sent Bullet Into One Thief's Leg—Regrets That Old Commander Was Not There.

Paddy Dempsey, uncle of prize-fighting Jack Dempsey, who arrived in town last night from Lee Hall, submerged in the sea, and with a thirst that would have made the bibulous citizen living somewhere east of here, here, charged with the murder of a man, and as he expressed it, he is a good one, he used a boosting adjective to describe his work which was more striking than elegant.

According to Dempsey, he arrived at Lee Hall from Newport News with thirty-eight dollars and a six-shooter of the name called in his clothes. Four negroes held him up and took the money, but the kinsman of Jack set the gun to talking, and one robber

howled as a bullet ploughed deep into the fat of his leg. Consequently, when he arrived here Dempsey was empty-handed, so far as cash was concerned. He still carried a satchel, just large enough to hold a half pint and his gun, but his winking manner indicated that he had thrown the former into his system.

"I served in the Confederate Navy under Admiral Symme," said Paddy, "and there is a ball in my shoulder now. That was a great man, God bless him. If he had been with me at Lee Hall we would have cleaned up the coons."

And with that Dempsey ambled off to clean up.

The new map of the Boulevard will be known as Twenty-ninth Street, West. In advocating this plan, Mr. Don Leavy states that he believes it will be far more convenient, saving much annoyance and giving strangers and homefolk a more intimate knowledge of the lay of the land. Moreover, where two streets have the same name, such as Cedar, for instance, one will be changed. At present there are two Cedar Streets in Richmond, and merchants especially have complained, as it often happens that delivery wagons are sent to one of them when the person wanted lives on the other.

Colonel Cutshaw explained that as the city grows and spreads out in the western section, the new streets crossing Main can likewise be designated numerically.

### ABOVE NINETY

Yesterday Was Another Day of Torrid Heat. Probably that it will continue.

Terrific heat yesterday, and though there were no clouds, the thermometer ranged above ninety degrees, and at midnight it was still sticking at eighty. All day the sun shone with a fierce intensity, and there was rarely a cloud to veil its penetrating rays. The hope of a shower to-day is the only sign of comfort, but it is probable that the terribleness of yesterday will continue.
